## LINEASEI

### LINEA SEI

Tecnologia e design si fondono in questo sistema di arredo minimale e di grande personalità. Adatto per eleganti soluzioni espositive nel mondo della moda ed accessori.

Gradevole anche nel solo utilizzo come punto luce grazie a strisce multiled inserite all'interno dei tubi "appenderia" realizzati in acciaio spazzolato, con intagli per la dissipazione del calore. Disponibili sia con sistema autoportante che su pannelli lucidi da collocarsi a parete.

### LINE SIX

*A perfect fusion of design and technology defines this system of minimal furnishing with particular features. This system is right for smart showing solutions in the fashion industry.*

*It can be used just as a light spot, thanks to some multi-led streaks placed inside the hanging bars, made of brushed steel, with incisions for heat dispersing.*

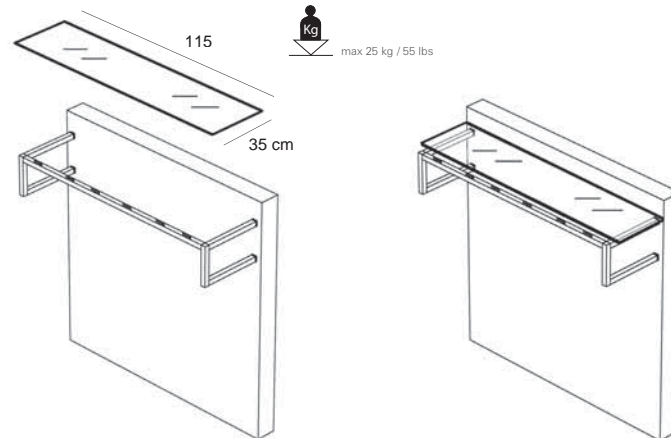

*Available either as a self-supporting system or by glossy panels to be hung on the wall.*
